NOTE.

In the tables contained in these Accounts, Imports are generally classified as received from the countries whence they were shipped direct to the United Kingdom. In the majority of cases the country of shipment is also the country of origin; but it should be borne in mind that this is not always the case, and that to a greater or smaller extent merchandise, originating in one country, is credited in these tables to other countries at whose ports it has been transhipped or through whose territories it has been conveyed by rail for shipment to the United Kingdom.

Exports are, as a rule, credited in the tables to the country of ultimate destination as declared by the exporters in their entries. Exports, however, to countries which possess no seaboard are credited to the country in which the port of discharge is situated.

INTRODUCTION TO VOLUME II.

The Tables in this, as in the preceding Volume, give information for each of the years 1902–1906.*

The Tables relating to the Imports and Exports of Coin and Bullion have been transferred to Volume I.

SECTION I.

The Tables given in Section I. of this Volume consist of Abstracts of the information with regard to the trade with each country and colony and the trade of each Port, which is given in detail in Sections III. and IV. Table 1 gives the total value of the merchandise imported from and exported to each country and colony, whilst Tables 2 and 3 give separately the exports to each country and colony of the produce of the United Kingdom and of Foreign and Colonial merchandise. A statement of the total value of imports, British and Irish exports, and Foreign and Colonial exports, at each Port of the United Kingdom is given in Table 4.

SECTION II.

The two Tables comprised in this Section, viz., Tables 5 and 6, give particulars of the gross amount of Customs Revenue received (*a*) at each Port and certain inland towns, and (*b*) in respect of each principal article imported or exported.† The Tables include, besides the Duties, the other receipts incidental to the clearance of the goods; that is to say, the charges on delivery from bonded warehouses,‡ the bottling charges, and moneys deposited but not appropriated to goods. Drawbacks and allowances for over-entries, etc., have not been deducted.

SECTIONS III. and IV.

The groups of Tables in Sections III. and IV. make up the bulk of the Volume. These statements show the quantity and value of the principal classes of merchandise imported and exported (*a*) at each Port of the United Kingdom, and (*b*) in trade with each Foreign Country and British Possession, exports of the produce of the United Kingdom and exports of Foreign and Colonial Merchandise being separately distinguished.

In Table 7 relating to the trade of each Port, the Ports are arranged alphabetically under the four divisions of "England and Wales, "Isle of Man," "Scotland," and "Ireland." The Countries in Table 8 (Trade with each Country) are arranged in two divisions, one including Foreign Countries, the other British Possessions and Protectorates. Within these divisions, however, the arrangement is geographical, except that the Colonial Possessions of Foreign Countries are placed immediately after their respective mother countries. In both divisions European Countries are given first, and these are followed by Africa, Asia, Australasia and America in that order.

In the introduction to Volume I. the method of registration by which imports and exports are accredited to each Country has already been sufficiently indicated.

The information as regards Ports shows the quantity and value of the merchandise entered for export or cleared for import by the Customs at each Port. Imported goods, though landed at the Ports to which they are accredited, may afterwards be carried in coasting vessels to other Ports before passing into consumption. Thus these Port Returns are not an exact indication of the imports and exports passing through each Port.

SECTIONS V. to VII.

Transhipment, Bonded Warehouses and Transit.

The three remaining Sections (V. to VII.) of this Volume deal with (*a*) transhipments under bond, (*b*) stocks in, and free deliveries from, bonded warehouses, and (*c*) free goods in transit on through bills of lading.

---

* Except the Tables relating to goods remaining in bonded warehouses, as to which the information for 1906 is not complete.

† The only export duty was that levied on coal from 19th April, 1901, to 31st October, 1906.

‡ These charges were abolished as from 1st July, 1905.

Transhipments under Bond.—As explained in the Introduction to Volume I., transhipments under bond include all goods, whether dutiable or free, removed from a ship in one Port and carried under bond to another Port for re-shipment, or removed under the same conditions from one ship to another in the same Port. The system must be distinguished from that under which dutiable goods are often stored in bonded warehouses and afterwards re-exported without paying duty. Such goods *are*, whilst goods transhipped under bond *are not*, included in the general Tables of imports and of Foreign and Colonial exports.

The Section includes two detailed Tables, Numbers 12 and 13, giving respectively by countries of import and export, and by Ports in the United Kingdom, the quantities and values of each principal dutiable article transhipped under bond. Other articles are not individually distinguished, their total value only being given.

Of the remaining Tables in this Section Numbers 10 and 11 are Summary Tables giving the same particulars as in Table Number 12, but omitting in the one case the distinction of articles, and in the other the distinction of Countries of import and export, whilst Number 9 gives the total value of the transhipments under bond as a whole.

Stocks in, and free deliveries from, Bonded Warehouses.—Of the Tables in this Section one (Number 15) shows in detail the quantities of the principal imported dutiable articles which remained in warehouse or were entered to be warehoused at the end of each of the years, 1901–1905, in each of the principal bonding Ports or places in the country, whilst similar information, but without distinction of Ports, at the end of each year, 1902–1906, is given in the Abstract Table Number 14. The information with regard to 1906 is, however, incomplete and partly estimated, and it will be observed that detailed information with regard to particular Ports is not given for that year.

The remaining Table in this Section gives the quantities of each of the principal articles of merchandise delivered free of duty from bonded warehouses for the use of H.M. Navy and Army, and for stores of Merchant Vessels, respectively, during each year, 1902–1906. These goods are not included in the account given in Volume I. of goods entered for consumption.

Free Goods in Transit on through Bills of Lading (other than goods transhipped under Bond).—These goods are included in the Tables with other goods imported and exported throughout these Volumes, but a separate account is taken of them and certain of the figures are given in this Section. The Section consists of three Tables, of which one (Number 18) gives particulars of the quantity and value of the various articles of merchandise passing through the Country, whilst another (Number 19) shows the value of the merchandise in transit, imported from and exported to each Foreign Country and each British Possession and Protectorate. The total value of such merchandise for each Port is given in an Abstract Table (Number 17).
